editor's letter

Summer is well and truly here, and with it comes the joy of dressing for sunshine, holidays, garden parties and long, lazy weekends. For me, it's always the season that inspires me to sew the most. Bright colours and bold designs always sing louder in summer. There's something special about creating pieces that feel effortless to wear, yet completely unique because you've made them yourself.

This collection celebrates everything we love about summer style. Inside you'll discover vibrant tropical prints, playful food-inspired fabrics, beautiful broderie anglaise, easy-wearing denims and versatile wardrobe staples designed to mix, match and take you through the season in style.

I'm especially excited to introduce our two newest patterns: The Marlowe Waistcoat and The Ren Shorts. Designed to work beautifully together or as standalone pieces, they capture the relaxed tailoring trend we're seeing everywhere this summer. Marlowe brings a polished feel to everyday dressing, while Ren offers an easy silhouette you'll reach for again and again. Together they create the ultimate handmade summer co-ord.

As always, every fabric and pattern in this collection has been carefully selected with dressmakers in mind. Whether you're planning a holiday wardrobe, sewing for a special occasion, or simply looking to refresh your handmade wardrobe, I hope these pages inspire your next project.

Thank you for being part of the Fabric Godmother community and allowing us to share our love of fabric, fashion and sewing with you. We can't wait to see what you create.

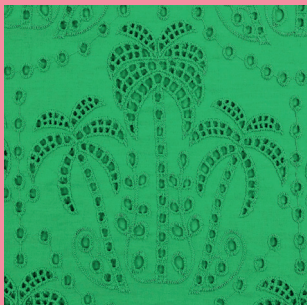

Happy sewing,

Josie Hawes, Founder
